

# Acronis Backup & Recovery® 11.5

## Workstation

### Best Backup for Laptops or Desktops

Acronis Backup & Recovery 11.5® Server for Windows® is built around state-of-the-art imaging technology, allowing you to create a disk-image backup, or snapshot, that contains full operating system, applications and data. Now you can backup and recover your entire system in just a few easy clicks, with less risk of error.

Acronis Backup & Recovery 11.5 Server for Windows guarantees applications consistency and recoverability. Quickly backup and recover applications servers such as Exchange, SQL Server, Active Directory, Oracle and SharePoint.

#### Benefits:

- Fast and easy backup and recovery
- Recover to any hardware
- Acronis Secure Zone with F11 boot
- Backup to Acronis Cloud Storage

### Why Use Acronis Backup & Recovery 11.5 Workstation?

#### Fast and Easy Backup

Acronis' award-winning disk-imaging technology creates an image backup of your entire machine.

#### Recover Quickly

Recover image backups to a bare-metal machine in just minutes.

#### Acronis® Universal Restore™

Recover an image to dissimilar hardware or VMs with just a few clicks. Optional Acronis Universal Restore automatically ensures that your system is properly configured and has all the necessary drivers to boot on a new physical or virtual hardware.

#### State-of-the-Art Imaging Technology

The imaging technology analyzes supported file systems in order to identify and skip the backup of unused blocks, unnecessary files – like page and hibernation files – and custom files and folders defined by the user.

#### File Backup and Recovery

File-based backup can be used to protect data on network shares and individual files can be recovered from disk-image backup.

#### Acronis Secure Zone®

A special protected portion on a hard disk drive for secure storage of backups.

#### Acronis Startup Recovery Manager® (F11 Boot)

Holding F11 during system boot loads Acronis Startup Recovery Manager – a special recovery environment.

#### Acronis Cloud Storage

Optional Acronis Cloud Storage gives you an extra layer of data protection online. You can store backups, or make a secondary copy of local backups, to a reliable and highly secure cloud datacenter.
